You must be an APS member to participate

You must be an APS member to participate

How to find APS members in local companies

1. APS Member Directory (under Membership at aps.org)
2. On right side, choose “Company” affiliation
3. Choose the state you want
4. Click “Show All” at bottom of listing
5. Company names are links to individuals including contact information

Note that this is a listing of APS members, not all physicists. However, it is a good starting point to identify companies that employ physicists and perhaps some possible contacts.
